

SB4 beam load cell

product description

The SB4 is a high accuracy, low profile bending beam load cell available in a wide range of capacities. All stainless steel construction and complete hermetic sealing ensures reliable accuracy and robustness in harsh industrial applications. The SB4 is the ideal choice for high accuracy weighing platforms due to the blind-hole load introduction arrangement combined with the self-aligning feet. This model is fully interchangeable with the potted SB5.

applications

Industrial platform scales, pallet truck scales, vessel and tank weighing systems.
